- + MORE AGILITY
- + MORE CONTROL

WM FLEXY

The smart cart that makes
your services mobile

Presenting a new tool: WM FLEXY, the modular cart you've been waiting for. This cart isn't just a piece of aluminium for carrying things; it's the nerve-centre of your work.

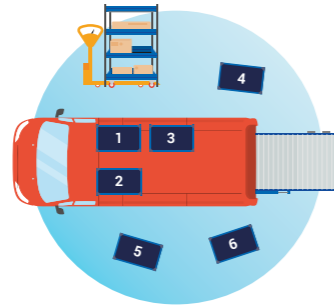

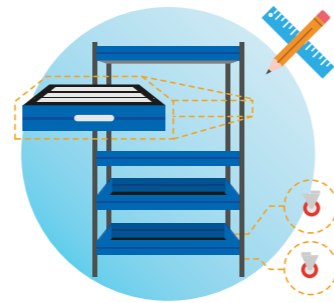

You can use it at your base or on the move. With a hired van and one or more carts, your entire operation becomes mobile. Fully customisable in size and fittings, WM FLEXY can be tailored to any vehicle. With the right tools ready ahead of time, you're sure to do an efficient job of work. And you only take what you need with you, with no lugging extra equipment around.

Reasons for choosing WM FLEXY

Customisable

- Modular for construction to your needs
- Stackable
- Complete with self-locking wheels

Practical

- Equipment is not kept in the van, so it's free for other uses
- Suitable for all vans and interchangeable
- A van can take up to 6 carts
- Weight is always under control

Quick

- Fast van loading and unloading
- You prepare your materials in advance, for optimal organisation
- It can be loaded from workshop to van in just 5 minutes
- Equipment can be moved around without having to load and unload every item every time

Practical and professional

PREPARE THE CART

01

Prepare your gear a day ahead and be well organised

WEIGH

02

Weight is always under control, because you only transport exactly what you need

LOAD

03

With the wheel kit, moving between workplaces couldn't be easier

LOCK

04

Mobility is safe thanks to the self-locking brakes on the wheels and the vehicle anchor system

Characteristics

Modular, enabling assembly to requirements

Mobile, thanks to wheel kit

Lightweight: constructed entirely in aluminium

Tough: all uprights have hard-wearing rubber finish

- Modular, allowing assembly to requirements: with drawers, dividers, partitions and sides
- Total load capacity up to 400 kg /880 lbs
- Stackable
- Easy to assemble thanks to practical instructions
- Easy to weigh
- Anti-tipping: with self-locking brakes on swivel wheels
- Interconnectable: special kit allows carts to be connected and towed together

PATENTED assembly system
